01

# Product idea.

# Time to get active.

- The perfect companion for the agile workplace
- Maximum flexibility thanks to casters and height adjustment
- High chair and work chair with backrest
- Also available as a high chair without backrest
- A practical foot ring rounds off the comfort of the high chair
- Fits in with the crona collection perfectly

# Cheers to crona up!

crona up features continuous height adjustment without losing traction on its five casters. That's why crona up is the perfect partner for your agile workplace.

In addition to the adjustable high chair version with supporting circular base ring, a low stool version of crona up is also available.

## Seat height adjustment:

- Highchair: 65–84 cm
- Work chair: 43–52 cm

## Move on up!

The supporting column with integrated in-depth suspension enables continuous height adjustment.

# Time to get active.

With or without a fully upholstered back, crona up rolls with you wherever you need it. The highchair and stool are mobile and turn easily, while the specially moulded seat upholstery makes them extremely versatile – at 180–360 degrees.

In the standard version, crona up is available with enclosed, reverse brake casters. This ensures it doesn't roll away by accident. Casters are also available with an open wheel on request.\*

**Creates accents:**  
available with two-tone upholstery  
and lava or stone coated frame on  
request.

\*Hinweis: Diese Ausführung entspricht nicht den Anforderungen an die Standsicherheit gemäß DIN 16139.
